

Unlike all Other Products

Green Light Fire Ant Control is attractive and deadly to fire ants. Fire ants quickly find and pickup the bait, take it back to the mound, and feed it to the entire colony including the queen(s). Ants start dying in 24-36 hours with mound/colony destruction in 3 to 14 days.

Benefits

- Environmentally friendly organic ant control.
- Can be used in vegetable gardens.
- Kills Fire Ants in 24 hours.
- OMRI listed for use in organic food production.
- Can be applied as a mound treatment or broadcast bait.

Organic Control

Green Light Fire Ant Killer with Spinosad[®] kills on contact and by ingestion. It can be applied as a drench or broadcast spray around active fire ant mounds in the landscape, lawn, and vegetable garden areas.

GREEN LIGHT FIRE ANT CONTROL WITH CONSERVE[®]

*Safe to use around children
and pets!*

Contains: Spinosad, treats 22
mounds or 10,900 Square Feet

FIRE ANT COLONIES

Are started by newly mated queen(s) that fly into an area, burrow into the ground and begin laying eggs. Several flights are common during the summer, often shortly after rains. It takes several weeks for new mounds to appear. Combining mound and broadcast applications eliminates/controls visible mounds and helps prevent new mounds from forming.

HOW TO APPLY

- **Mounds:** Sprinkle bait evenly over and around each mound in a 4 ft. diameter circle. Apply gently to avoid disturbing ants.
- **Broadcast Application:** Use a hand-held or ground driven rotary broadcast spreader.

MOWING

- Avoid mowing 1 day before and after application

WATER/RAINFALL

- Do not water in bait.
- Do not water within 6 hours of mound application or 24 hours of broadcast application.

WHEN TO APPLY

- Apply when ants are active (usually when temperatures are greater than 60°F).
- The best time to apply is in the cooler morning and late evening when fire ant foraging is at its peak.
- Mounds will usually be eliminated/destroyed in 3 to 14 days.

AMOUNT TO USE

- **Mounds:**
4 Tbs. for each mound.
- **Broadcast Application:**
½ to ¾ cup for each 1,000 sq. ft.

CONCLUSION

Green Light Fire Ant Control with Conserve is a powerful tool that has been added to the insect pest control arsenal, and it is completely *ORGANIC*.

Size: 1 pound
